NOTICE OF PROPOSED AMENDMENTS

2700.320, 2700.670 to replace "Board with "Department" where an independent relationship with the Illinois State Board of Investment is required.

2700.200 These revisions will add the definition of "Alternate Retirement System" for contractual employees as used in the Internal Revenue Code for 457 Plans. Also, various definitions are clarified to become more understandable.

2700.410, 2700.430, 2700.450, 2700.620, 2700.700, 2700.710, 2700.720, 2700.730, 2700.735, 2700.750, 2700.760 These revisions are being made to clarify wording so that the rules clearly state intent and actual practice.

2700.420 This provision expressly states the minimum deferral permitted for contractual employees. Contractual employees will be held to the same minimum as payroll employees ($10/pay or 20/month) unless 7.5% is greater. Then 7.5% must be used.

2700.440 This revision removes the November 30 date as the latest date a participant who utilized catch-up may choose to delay distribution of his/her account. This change will bring our rules in line with the Internal Revenue Code.

2700.430, 2700.630, 2700.640, 2700.650, 2700.730 These revisions are being made to incorporate Exhibits B, C, D, E and F of our rules into the rules.

2700.600 Paragraph b)5) is amended to reflect the correct paragraph reference in section 2700.730.

2700.730 Paragraph a)2) of this section will permit "monthly installments of fixed dollar amounts" as a method of distribution. Many participants have requested this type of distribution, which is similar to an annuity which currently can be purchased, by the State for a participant, as a distribution option.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PROPOSED AMENDMENTS

2700.740	This revision will expressly permit a participant who terminated, is receiving distributions, is again employed by the State and has filed a hardship application to stop distributions, to immediately re-enroll in the Plan.
2700.820	These revisions make clear the manner in which the accounts of missing persons shall be paid. Primary beneficiaries, contingent beneficiaries and the estate of a participant will now be expressly included in the rules.
Exhibit B Exhibit C Exhibit D Exhibit E Exhibit F	These Exhibits are amended into the Plan in the respective sections 2700.630, 2700.640, 2700.430, 2700.730 and 2700.650.

6) Will this proposed amendment replace an emergency rule currently in effect? Yes, sections 2700.440 and 2700.720.

7) Does this rulemaking contain an automatic repeal date? No.

8) Does this proposed amendment contain incorporations by reference? No.

9) Are there any other proposed amendments pending on this Part? No.

10) Statement of Statewide Policy Objectives: Rulemaking does not affect units of local government.

Section 810.37 Definitions for Site Specific Sportfishing Regulations

a) Site Specific Regulations are listed by water area affected. The coverage of the regulation

DEPARTMENT OF CONSERVATION

NOTICE OF PROPOSED AMENDMENTS

is dictated by the extent of the water area listed and not by the county. In some cases, regulations for a given water area or site may extend beyond the county(ies) listed. The county(ies) listed refer to the location of the dam or outfall for impoundments or mouths of small streams. Since large rivers or streams usually flow through many counties, the term "Multiple" is used rather than listing all counties where the large stream or river flows.

b) The subsections listed below are referred to by number in Section 810.45. Each water area listed in Section 810.45 has numbers in parenthesis which explain all of the definitions in this Section which apply to that water area.

1) Anglers must not use more than 2 poles and each pole must not have more than 2 hooks or lures attached while fishing, except that legal size cast nets, (in accordance with subsection 810.50 (a)(1)) shad scoops, and minnow seines may be used to obtain shad, minnows, and crayfish to use as bait, provided that they are not sold.

3) All largemouth and smallmouth bass taken must be less than 12 inches in total length or greater than 15 inches in total length.

West of Wolf Creek Road, fishing from boats is permitted all year. Trotlines/jugs must be removed from sunrise until sunset from Memorial Day through Labor Day. East of Wolf Creek Road, fishing from boats is permitted from March 15 through September 30. Fishing from the bank is permitted all year only at the Wolf Creek and Route 148 causeways. On the entire lake, jugs and trotlines must be checked daily and must be removed on the last day they are used. It is illegal to use stakes to anchor any trotlines; they must be anchored only with portable weights and must be removed on the last day they are used. The taking of carp and buffalo with bow and arrow is permissible.

5) Except that carp, buffalo, and bowfin may be taken by pitchfork, bow and arrow devices, and gigs.

6) Including the Fox River south of the Illinois-Wisconsin line to the McHenry Dam.

Section 600.50 Administrative Requirements

a) Costs for Local Government - Costs to the local government are not allowable.

b) Method of Compensation - Payments pursuant to a grant under the Act are subject to the availability of funds appropriated by the General Assembly.

1) The grantee will receive 50% of its total grant funds upon the effective date of the grant document and the remaining 50% by the date specified in the grant document (i.e., halfway through the grant period).

2) The grantee shall repay the State for any funds that are determined by the Statewide Coordinator through monitoring (subsection (e) below) and audit (subsection (e) below) to have been spent in violation of the grant document.

c) Reallocation of Funds - The Board will create and maintain a "back-up funding list" comprised of projects that have met program criteria and have been approved on a standby basis, but remain unfunded after the annual award of Keep Illinois Beautiful Program Grants. On April 30, 1994 the Program Coordinator will re-evaluate the timely distribution of funds under all program components, as well as the availability of unspent and recaptured funds. On this date, funds may be returned to the Keep Illinois Beautiful Grant Program to fully fund, to the extent funds are available, projects in the order they appear on the "back-up funding list".

~~d~~d) Final Report - The grantee shall submit a final report to the Statewide Coordinator for each grant to no later than 30 days after the end of the grant period. The final report will outline the accomplishments/results and achievements of the certified program funded under the grant as compared to the goals and objectives contained in the grant document. The Statewide Coordinator reserves the right to request additional information to further clarify or document activities outlined in the final report.

~~e~~e) Financial Management Standards - The certified program's management systems shall be structured under the Accounting Standards of the Financial Accounting Standards Board of the American Institute of Certified Public Accountants (AICPA) (June 1984). The grantee is accountable for all funds received under this program. The grantee through its agreement with the not-for-profit organization administering the certified program, shall maintain control and accountability over all funds, equipment, property, and other assets under the grant as required by the Statewide Coordinator. The grantee shall keep records that detail the expenditures of grant funds and accurately document such expenditures as required under the aforementioned AICPA Accounting Standards.

~~f~~f) Monitoring - The Statewide Coordinator will monitor each certified program periodically by visits throughout the fiscal year and/or by periodic program reports required to be submitted by grantee. The Statewide Coordinator will notify the grantee in writing in advance of monitoring visits. Any program reports to be submitted by grantee shall be required not more frequently than on a quarterly basis. The certified program will be evaluated for compliance with this Part and terms and conditions of the grant document. The Statewide Coordinator will confirm the results of the monitoring visits by letter to the grantee and not-for-profit

~~g~~g) Interest on Grant Funds - In accordance with the Illinois Grant Funds Recovery Act (30 ILCS 705/1 et seq.), all interest earned on grant funds held by the grantee shall become part of the grant principal when earned. Any interest earned on grant funds, and not expended as grant principal during the term of the grant, shall be returned to the State.

~~h~~h) Audits - The grantee shall be responsible for having an annual audit of all grant records and such audit must be performed by an independent public accountant, certified and licensed by authority of the State of Illinois. The grant audit should be conducted as part of the grantee's annual audit. The grantee shall provide the Statewide Coordinator with one copy of any portion(s) of its annual audit that pertains to the certified program or grant funds. In instances in which the grant period or term does not coincide with the grantee's fiscal year, two fiscal audit reports shall be forwarded to the Statewide Coordinator. Any grantee determined to have misused grant funds (e.g., fraud and abuse, noncompliance with this Part, noncompliance with terms and conditions of grant document) as a result of an audit shall be ineligible to apply for and receive funds under this program for ~~the remainder of the term of the grant~~ a period of one year after the date of such determination.

k) Separate Accounts - A separate bank account must be established for the purpose of this program. The account must require two authorizing signatures. Only funds received under this program or the grantee's matching funds may be deposited in the account.

l) Suspension and Termination.

1) If the Statewide Coordinator believes that a grantee has failed to comply with material terms or conditions of the grant document or this Part, the Statewide Coordinator shall recommend that the Lieutenant Governor suspend the grant and withhold further payments until the grant is terminated or the grantee's non-compliance has been corrected. At his discretion, the Lieutenant Governor may thereupon suspend grant payments effective as of the date that the Statewide Coordinator notifies the grantee in writing of the non-compliance and of the Lieutenant Governor's decision to suspend payments under the grant. The Lieutenant Governor will determine that grantee has failed to comply with the terms and conditions of a grant when:

5) A Complete Description of the Subject and Issues Involved:

This rulemaking allows family planning agencies to schedule less frequent follow-up appointments for oral contraceptive users who are not defined as high risk than for those users who are in the high risk category. Currently, this Part requires all women who are prescribed oral contraceptives at delegate agencies to have their blood pressure, with interim history, taken after the initial three months of use, after the second three months of use, again after six months of use, and every six months thereafter, alternating with annual examinations. By comparison, the Federal Title X Program Guidelines are less stringent for routine contraceptive management, requiring for women not at high risk only an examination, including blood pressure and weight, after initial three months of use and an annual history and examination thereafter. The rulemaking specifies high risk factors for contraceptive use, including age, weight, blood pressure, liver disease, or personal habits. In addition, the rulemaking adds as a service of delegate agencies an incision check for Norplant users, approximately two weeks after insertion.

13) Will these Amendments replace an Emergency Amendment currently in effect? No

14) Are there any amendments pending on this part? No

15) Summary and Purpose of Rule(s):

These proposed amendments are being submitted by the Illinois Department of Mines and Minerals, Oil and Gas Division, in order to more effectively implement the requirements of the Illinois Oil and Gas Act. These proposed amendments affect Subparts H, I and N of rules currently codified with 62 Ill. Adm. Code 240 as well as add a new Section 240.1181 to Subpart K.

Subpart H is being amended to accomplish five (5) distinct objectives. First, the IDMM is more clearly outlining general operating and maintenance requirements for oil and gas leases. Specifically, these

DEPARTMENT OF MINES AND MINERALS

NOTICE OF ADOPTED AMENDMENTS

amended rules set forth acceptable standards for lease and well identification, the construction and maintenance of tanks and containment dikes, the emplacement and maintenance of flowlines, the emplacement of power lines and storage of equipment. Second, the IDMM is establishing concise standards for permitting, constructing, maintaining and removing concrete storage structures. Moreover, these new standards ensure that oil and gas well operators remove concrete storage structures in an environmentally responsible manner. Third, the IDMM's amended rules identify certain pits historically associated with oil and gas production that are prohibited under the Illinois Oil and Gas Act. Fourth, the IDMM has clearly identified the party responsible for plugging unpermitted drill holes that leak into the freshwater or onto the surface. Finally, the IDMM's amended rules set out the procedures for resolving crude oil and produced water spills.

Subpart I is being amended to accomplish three (3) distinct objectives. First, the IDMM is revising its application process for permits to operate a liquid oilfield waste transportation system and for the related vehicle permits in order to more carefully regulate the disposal of water produced by oil and gas operations. Second, the IDMM is revising the standards for initial permit issuance as well as the subsequent vehicle inspection process and the permittee's recordkeeping requirements to more closely monitor the disposal of produced water. Finally, the IDMM has outlined the storage and disposal requirements for produced water, crude oil bottom sediments and crude oil spill wastes in a manner that is practical and environmentally responsible.

New Section 240.1181 is being added to Subpart K to define, with more clarity the steps that must be taken to restore an oil or gas well lease site.

Subpart N is being amended to accomplish three (3) distinct objectives. First, the IDMM is expanding the number of documents used to transfer the ownership of oil and gas wells in order to reflect current industry and IDMM practice. Second, amended rules are being proposed in order to ensure that new permittees that acquire the right to operate wells pursuant to either a voluntary release, involuntary termination of lease rights by court order or new base lease shall apply for and receive a permit transfer from the IDMM prior to operating such wells. Third, the amended rules ensure that wells are not shifted to a new entity absent the express consent of such party to becoming a new permittee. Finally, the IDMM has precisely outlined the manner in which the new permittee takes responsibility for pre-existing wells and related equipment located within the boundaries of the new lease.

Section 240.820 ~~Disposal in Earthen Pits~~ Flowlines

~~Salt water and other waste liquids may be impounded and considered as disposed of by evaporation in excavated earthen pits where the salt water or other waste liquids will not contaminate growing waters or private surface water in accordance with the following rules:~~

a) New Pits
 ~~Before any earthen pit may be constructed for such purposes the operator shall file with the Mining Board an application on a form approved by the Board. The Board may require such geological and engineering data as it reasonably necessary to enable the Oil and Gas Division to determine whether or not the pit will be sufficient to prevent the contamination of ground water or pollution of surface water. Within ten days after receipt of such application, the Mining Board shall:~~
 ~~1) Return the application with an explanation as to why permit has been refused; or~~
 ~~2) Issue a permit for the construction and use of the pit. Earthen pits may be constructed for such purposes only when the pit is under lain by clay or other impervious formation where the salt water in the pit is separated from any fresh water sand by an adequate sand stratum. Impounding of salt waters or the waste liquids in earthen pits is hereby prohibited except where the pit is constructed with such material which will prevent seepage from the pit.~~

b) Existing Pits
 ~~1) Within six months from the effective date of this rule, operators of all existing salt water pits shall submit application for a permit for said pits on such terms as the Mining Board may require. The application will be approved subject to physical inspection of the pit necessary to prevent the escape of waste liquids.~~

~~to-rise-above-the-lowest-point-of-the-ground-surface-level. All pits shall have continuous walls surrounding them so that no surface drainage from adjacent areas can enter the pits. No pit shall be used in an area which is subject to flooding by streams, rivers, lakes, or drainage ditches, unless so constructed that the pit would not normally be affected by flooding.~~

a) All flowlines used in the production of oil and/or natural gas, constructed after the effective date of this rule, shall be buried at least thirty-six (36) inches below the ground surface. The flowline shall be exempt from these burial requirements if made of steel and either of the following conditions exist:
 1) the topographical features, land uses or ground conditions prevent the efficient burial of flowlines; or
 2) the terms of the oil and gas lease prohibit the burial of flowlines.

b) The Department shall have the authority to take enforcement action (pursuant to Sections 240.140 through 240.170 of this Part) requiring flowlines existing on the effective date of this rule to be replaced or buried if the Department finds, based on field observation, that the flowlines constitute a hazard to public safety or can reasonably be expected to cause damage to the environment through leaks and spills.

c) No flowline conveying produced water shall have an outlet valve for the discharge of produced water between the place or well of origin and the authorized storage or disposal point.

d) Any spill from a flowline leak shall be cleaned up in accordance with Sections 240.890 and 240.895.

~~prevent overflowing. Such pits shall be constructed to prevent the escape of oil therefrom, and shall have a continuous wall completely surrounding the pit of sufficient height above the surface to prevent surface water from running into the pit. Earthen pits will be permitted at locations where the soil is heavy and tight, but shall be prohibited in locations where the soil is permeable and closely underlaid by either gravel or sand strata.~~

a) Equipment [illegible]
b) Other equipment not integrally related to production activities on a lease or unit shall not be stored on the lease except with the agreement of the surface owner.

D) in an area which is subject to annual flooding by streams, rivers, lakes, or drainage ditches.

2) Surface water drainage shall be diverted away from the concrete storage structure.

3) Concrete storage structure contents shall not be discharged onto the surrounding land surface or into a stream or other body of water unless a permit has been obtained from the Illinois Environmental Protection Agency ("IEPA").

4) The concrete storage structure permit number and the name of the permittee must be posted at the concrete storage structure in a legible and visible manner.

5) All concrete storage structures shall be covered with bird netting or other system designed to keep birds and flying mammals from landing in the concrete storage structure.

6) Concrete storage structures shall be constructed utilizing standard engineering practices using formed concrete bottom and sides.

7) After installation of the concrete liner and prior to concrete storage structure use, the structure shall be inspected by a Department Well Inspector. The permittee shall correct damages to the liner prior to placing liquid oilfield waste or produced water in the concrete storage structure.

8) Puncturing or perforating the concrete liner or installing any type of drainage system is prohibited.

C) Pit residue shall be removed from the site and disposed of at an Illinois Environmental Protection Agency permitted non-hazardous special waste landfill.

2) If the base of the structure is less than three (3) feet below the ground surface, the structure must be completely dismantled and removed from the site. The surface area shall be leveled and restored in such a manner as to prevent the ponding of water and erosion.

3) If any portion of the structure is below the ground surface, the portion of the structure within three (3) feet of the surrounding surface shall be removed. Any remaining structure must be configured to prevent the accumulation of water within the remaining structure and backfilled to prevent surface ponding and erosion.

k) Inspection of Concrete Storage Structure

All new or newly permitted concrete storage structures shall be subject to inspection by a Department Well Inspector. If requested at time of the inspection, the concrete storage structure shall be emptied in order to examine the integrity of the structure. The Department may order any remedial work it deems necessary to ensure compliance with Department regulations.

The pit shall be backfilled and graded to promote runoff with no depressions that would accumulate or pond water on the surface. The stability of the backfilled pit shall be compatible with the adjacent land use. The surface area over the backfilled pit area shall be stabilized to prevent erosion.

coverage, many persons with AIDS or disability due to HIV may be unable to afford the premiums for the continued coverage.

Section 2056.61 Indigent Services and the Drunk and Drugged Driving Prevention Fund

a) All programs shall provide alcohol and drug evaluation and remedial education services to DUI defendants determined to be indigent. Such services shall be provided on the same terms and conditions as required under this Part, regardless of ability to pay. In order for a DUI defendant to be determined indigent, and thereby qualify for the indigency fee, the defendant must provide documentation relative to dependents and income (as verified by the most recently filed Federal or State Income Tax Return). If the defendant was claimed as a dependent on a tax return filed by someone other than the defendant (as is frequently the case with many full-time students) a copy of that return must also be provided by the defendant and considered as income. If there has been any change to the defendant's income or dependent status since the last filing or if the defendant has never filed a tax return, the defendant must provide a notarized document attesting to current status.

b) Once the defendant supplies proof of dependent and income status, the program must then complete the "Qualification for DUI Services as an Indigent" form for each type of service requested. A copy of the "Qualification for DUI Services as an Indigent" form and the Federal or State Income Tax Return and/or any other notarized documentation shall be maintained in the DUI defendant's record.
Based upon the information supplied by the defendant and documented on the "Qualification for DUI Services as an Indigent" Form and any other verifying documentation, the program shall determine if the defendant qualifies for the indigency fee.
In all cases the indigency fee shall be 10% of the rate established by the Department for the service.
Programs shall make all reasonable efforts to collect the indigency fee from the defendant prior to completion of the evaluation or remedial education service. However, if the fee is not collected from the indigent defendant by the completion of services, the evaluation or proof of remedial education documents must be released to the appropriate circuit court of venue in accordance with the provisions specified in 2056.310(b). The unassessed cost of the service can then be billed to the Department under the terms specified in subsections (f) through (k) below.
Any licensed DUI evaluation or remedial education program that is in compliance with this Part can submit claims to the Department for

DEPARTMENT OF ALCOHOLISM AND SUBSTANCE ABUSE

NOTICE OF EXPEDITED CORRECTION

reimbursement from the Drunk and Drugged Driving Prevention Fund for services provided to indigent DUI defendants.
Such programs may be reimbursed from the Drunk and Drugged Driving Prevention Fund for the unassessed cost of providing services to DUI defendants who qualify for the indigency fee as specified in subsections (a) through (b), providing that the "Qualification for DUI Services as an Indigent" form is completed and the appropriate verifying documentation is obtained.
Any program choosing not to submit claims to the Department for reimbursement from the Drunk and Drugged Driving Prevention Fund for services provided to DUI defendants who qualify for the indigency fee as specified in subsections (a) through (b) must still provide services to those defendants and can only assess them the indigency fee as specified in subsection (d).

g) Services shall be reimbursed as follows:
1) DUI evaluations, shall be limited to one completed evaluation per defendant per DUI arrest. For billing purposes, the unit of service shall be a completed evaluation. The evaluation service shall be considered complete when the "Alcohol and Drug Evaluation Uniform Report" is completed by the program and is ready for the ~~defendant~~ defendant's signature. If the defendant refuses to accept or sign the "Alcohol and Drug Evaluation Uniform Report", the service is still considered complete for billing purposes.
2) DUI remedial education courses shall be limited to one completed course per defendant per DUI arrest. For billing purposes the unit of service shall be one completed course. The remedial education course shall be considered complete when the defendant has successfully completed the course as specified in Section 2056.410. A program which offers a remedial education course in combination with the required hours of alcohol and drug treatment pursuant to Section 2056.410(a), shall not be eligible to receive reimbursement for such remedial education course from the Drunk and Drugged Driving Prevention Fund, if the program uses any public monies to provide any or all of said hours of alcohol and drug treatment.

h) The amount which the Department will reimburse programs from the Drunk and Drugged Driving Prevention Fund for each service shall be 90% of a cost-based rate established by the Department annually for the service, or the program's usual and customary fee for the service minus 10% of the Department's rate (the indigency fee), whichever is [illegible].

i) Programs shall make all reasonable efforts to collect the indigency fee from indigent DUI defendants in accordance with the provisions specified in subsection (e). However, the Department's payment (pursuant to subsection (h)) plus 10% of the rate collected from the defendant shall be considered full payment and collection efforts shall cease unless a specific exception to this provision has been granted by the Department or if the provision specified in subsection

(k)(3) below is applicable. Programs shall maintain in the defendant's record any and all records of attempted collection from indigent DUI defendants (or third parties) for whom payment has been sought, ~~in the defendant's record~~, and shall allow the Department to inspect such records.

j) The Department shall conduct post billing audits of defendant eligibility and financial status. Department audits may be conducted on a random basis to survey program compliance with this Part or in response to complaints. If such audit reveals that the program has billed for an ineligible defendant or a defendant has paid more than 10% of the Department's rate for the service (the indigency fee), the Department shall submit a demand for repayment showing why payment was improper. If repayment is not made within 15 days, the Department may begin procedures for sanctions under Section 3-105 of the Act unless the program has proven that the payment or collection procedures were proper.

The Department shall conduct audits of indigent DUI defendant records for whom reimbursement was sought to determine if the services claimed for reimbursement were provided. Department audits may be conducted on a random basis to survey program compliance with this Part or in response to complaints. If services were not provided, the Department shall submit a demand for repayment showing why payment was improper. If repayment is not made within 15 days, the Department may begin procedures for sanctions under Section 3-105 of the Act unless the program has proven that payment was proper.

k) Programs shall submit billings to the Department on the "Monthly Invoice Summary" and "Report of Evaluation/Remedial Education Service to Indigent DUI Defendant" forms. These forms will be produced by the DUI Service Reporting System (DSRS). The following process must be adhered to:

1) Billings must be submitted to the Department on a monthly basis within thirty (30) days after the end of the month in which the services were completed.

2) Services to the indigent DUI defendant must be complete prior to billing. Billing for partial or incomplete services is not allowed.

3) Reimbursement shall be subject to availability of money in the Drunk and Drugged Driving Prevention Fund. If it appears that billings will exceed revenues, the Department may, upon reasonable notice to participating programs, give priority to reimbursement for evaluation services. The Department may, if required, give thirty (30) days notice to participating programs that reimbursement will be discontinued. If this discontinuation occurs, programs must then only meet the requirements specified in 2056.60.

4) Should two bills be submitted for the same service for the same DUI defendant for the same episode, the first date of service alone shall be reimbursed.

(Source: Expedited correction at 17 Ill. Reg. 19982, effective November 1, 1992)

Section 2056.75 Sanctions

a) The Department may issue a written warning, place on probation, suspend, revoke, refuse to issue, or refuse to renew licenses. In addition the Department may discontinue a program from participation in Drunk and Drugged Driving Prevention Fund reimbursement and may require repayment of money improperly paid out of the Fund. Opportunity for a hearing shall be granted in any instance other than when a written warning is issued. The Department may impose one or more of the sanctions listed above in any instance in which the program has:

1) failed to comply with any provision of the Act;

2) failed to comply with any provision of this Part or other applicable Parts;

3) falsified any information required to be submitted to the Department pursuant to this Part;

4) permitted staff members, who are not qualified pursuant to Sections 2056.320 or 2056.415, to perform DUI services;

5) failed to comply with any law or ordinance, after the program has been found guilty of the violation by the entity with subject matter jurisdiction over the alleged offense;

6) failed to provide reports to any Illinois circuit court in a timely manner, as prescribed by the rules of the court of venue;

7) been found to have been or be in violation of local zoning or fire code requirements;

8) failed to comply with a Departmental request for information within 30 days;

9) interfered with or obstructed a Department compliance inspection or Department investigation, i.e., failed to sign the inspection notice or failed to provide information requested by the investigator or inspector;

10) collected for services covered by the DUI Fund from both the defendant or a third party and the Department beyond what is allowed in Section 2056.61;

11) refused to repay money which has been found to have been paid improperly from the Drunk and Drugged Driving Prevention Fund after reasonable opportunity to repay has been given by the Department upon demand showing why payment was improper. Repayment shall not preclude the imposition of other appropriate sanctions;

12) violated any contractual agreement with the Department.

b) The sanction provisions as set forth in 77 Ill. Adm. Code 2058.905 are applicable to licensees under this Part.

c) Hearings pursuant to this Section are governed by 77 Ill. Adm. Code 2058.900.

Each DUI defendant shall be given a copy of the Department's "Informed Consent" form and a copy of the Department's information brochure, explaining the alcohol and drug evaluation process, which must be read by the defendant prior to the provision of any evaluation service. The "Informed Consent" specifies that the program will release any information provided by the DUI defendant to the circuit court of venue or the Office of the Secretary of State and explains that the consent of the defendant is not required for this disclosure. 03/11/1993 The sale of computer software in Illinois is subject to Retailers' Occupation Tax with limited exceptions. A transfer of software subject to a valid license agreement as described in Section 130.1935(a)(1) or a transfer of custom software as described in Section 130.1935(c), are not considered to be taxable retail sales. Transfers of canned or pre-written computer software, as well as software updates, are considered to be taxable retail sales. 05/13/1993 In order to be considered a non-taxable license of software, a licensing agreement must contain all the requirements of Section 130.1935(a)(1)(A-E). If a vendor can show evidence, however, that it is his policy, however, to provide another copy of the software at minimal or no cost if it is lost or damaged by the customer, the terms of Section 130.1935(a)(1)(D) are considered to have been met. Perpetual licenses need not contain the provision of Section 130.1935(a)(1)(E).

FARM MACHINERY AND EQUIPMENT EXEMPTION

93-0157 $1.00 — 04/09/1993 The Farm Machinery and Equipment Exemption is not limited to traditional types of agriculture. For example, certain types of fish production equipment could qualify for the exemption as long as the fish, their products or offspring were subsequently sold.

93-0290 $1.25 — 06/02/1993 "Production agriculture" includes horticulture (see subsection (c)) and floriculture (see subsection (d)), but does not include the sale of equipment to retail outlets that do not grow the plant stock themselves.

93-0305 $1.00 — 06/04/1993 Posts and wire used to construct and maintain trellises used in growing, supporting and harvesting blackberries do not qualify for the exemption. The exemption does not extend to ordinary building materials.

93-0322 $1.25 — 06/11/1993 Aquaculture, the growing of fish for subsequent sale, is a type of "production agriculture," and equipment which is used over 50% of the time in this process qualifies for the Farm Machinery and Equipment Exemption.

93-0354 $1.00 — 06/30/1993 Section 130.2100 explains that feed used for livestock that will be sold, or whose products will be sold, is exempt from tax.

FOOD

93-0133 $1.25 — 04/06/1993 The manner in which food is taxed depends upon the nature of the establishment selling the food. As a general rule, if a retailer provides seating or facilities for on-premises consumption, he incurs the high rate of tax on all food sales. If a retailer sells food for immediate consumption and grocery type items and also provides facilities for on-premises consumption, the low rate of tax can be charged on the grocery-type items ONLY IF the areas where food will be consumed on-premises are partitioned and served by a separate means of collection.

93-0159 $1.25 — 04/09/1993 If a retailer sells food primarily in bulk, if the food does not constitute food for immediate consumption, and if no facilities are provided for on-premises consumption, then sales of food are taxable at the low rate. However, hot food, soft drinks and alcoholic beverages are always taxable at the high rate.

93-0210 $1.00 — 04/30/1993 The manner in which food is taxed depends upon the manner in which it is sold. See Section 130.310 (b)(2) and (3). Generally speaking, however, food which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food which has been prepared for immediate consumption), is taxable at a low rate.

93-0231 $1.00 — 05/04/1993 Beer, as an alcoholic beverage, would be subject to the high rate of tax. Non-alcoholic beer, presumably that with an alcohol content of less than .5%, would be considered a soft drink not subject to taxation under the Dram Shop Act as an alcoholic beverage. However, we believe that this product does fit the definition of a soft drink and, therefore, would be subject to the high rate of Retailers' Occupation Tax.

93-0255 $1.25 — 05/19/1993 Sororities and similar organizations incur Retailers' Occupation Tax on the selling price of the meals transferred to their members. If the price of the meals is not separately stated on the bill to members, then it must be broken out and tax remitted on the appropriate amount. When purchasing food for sale to members, a sorority provides a Certificate of Resale to its supplier (see the enclosed copy of Section 130.1405). When selling food to members, a sorority incurs the high rate on food. The high rate is applicable because the food is being prepared for immediate consumption. See the enclosed copy of Section 130.310.

93-0261 $1.25 — 05/20/1993 All sales of hot food, food prepared for immediate consumption and soft drinks are taxable at the high rate of tax. The sale of food which is not prepared for immediate consumption or which is consumed off the premises where the food is sold because no facilities are provided for on premises consumption, qualifies for the reduced rate of tax.

93-0274 $1.25 — 05/21/1993 If the majority -- over 50 percent -- of food sales are bulk sales, the low rate applies to all sales (except for hot food and alcoholic beverages and soft drinks). If such a store provides on-premises dining facilities, however, the store will incur the high rate on all sales (even those that are bulk) UNLESS

the dining facilities are physically separated from other areas AND the retailer utilizes a separate means of recording the receipts from on-premises consumption from other sales.

FOOD AND DRUGS

93-0289 06/02/1993 If vitamins purport on the label to have medicinal
$1.25 qualities and are intended for human use, they are considered to be a drug, and are taxable at the low preferential rate of 1% (and, if applicable, local taxes). If, however, no such medicinal claims are made on the label, the vitamins are considered to be a food, and may be taxed at either the high or low rate, depending upon the nature of the establishment selling the vitamins.

FOOD, MEDICINE AND MEDICAL APPLIANCES

93-0166 04/12/1993 Products which do not qualify as medical appliances
$1.00 include disposable underpads, disposable diapers, and exam gloves. These items are subject to the high rate of tax. Wheel chairs are specifically included in the regulation as a medical appliance and are subject to the low rate of tax. Catheters which are used to substitute for a malfunctioning part of the body, for example either removing fluids from the body or introducing fluids into the body, can qualify as medical appliances. When used in this manner, catheters are subject to the low rate of tax.

93-0173 04/14/1993 Food that is prepared for immediate consumption is
$1.00 subject to the high rate of tax. Food that is not prepared by the retailer for immediate consumption, such as bulk food sold at a grocery store, is subject to the low rate of tax. Products that qualify as a medicine by making a claim of medicinal value on the label, are subject to the low rate of tax. Lastly, items that qualify as medical appliances because the product directly substitutes for a malfunctioning portion of the body, are subject to the low rate of tax.

93-0332 06/16/1993 The sale of food which is not prepared for immediate
$1.00 consumption, medicines and medical appliances are subject to a reduced rate of tax. Food is not tax exempt in Illinois.

93-0333 06/16/1993 Food that is prepared for immediate consumption or
$1.00 which is hot when sold, is subject to the high rate of tax. Only food which is not prepared for immediate consumption is subject to the low rate of tax.

GRAPHIC ARTS EXEMPTION

93-0269 05/21/1992 The Graphic Arts Machinery and Equipment exemption

GRAPHIC ARTS MACHINERY AND EQUIPMENT

93-0264 05/20/1993 Machinery and equipment used primarily in graphic
$1.25 arts production may be purchased free from Retailers' Occupation Tax.

93-0283 05/27/1993 Graphic arts machinery and equipment exemption is

93-0295 06/03/1993 Graphic arts production means printing by one or

Print trade services such as typesetting, negative production, plate production, bookbinding, finishing, and loose-leaf binder production are examples of services which are included in the definition of graphic arts production. The exemption extends only to machinery and equipment used in the act of production.

93-0308 06/07/1993 Under this exemption, machinery and equipment used
$1.25 primarily in graphic arts production may be purchased free from Retailers' Occupation Tax. The exemption does not require that the product of the graphic arts production be resold rather than used by the producer.

93-0135
$1.25 04/07/1993 Discounts represent amounts that a retailer allows a consumer to deduct from the selling price of an item. The retailer's gross receipts are thereby reduced. In a situation in which a retailer does not allow a discount, and thus receives gross receipts based on the full selling price of an item, and a related but separate credit billing company sends the retailer's volume customers a cash refund, the retailer cannot claim a discount deduction on his return because he has not given such customers a discount which resulted in decreased gross receipts from that sale.

HOTEL OPERATORS' OCCUPATION TAX

93-0154 $1.25 — 04/08/1993 The Hotel Operators' Occupation Tax contains no exemptions for charitable, religious, governmental or educational organizations.

93-0177 $1.00 — 04/19/1993 The Hotel Operators' Occupancy Tax is a tax imposed upon persons engaged in the business of renting, leasing or letting rooms. The statute imposing the tax allows the hotel operator to collect a corresponding amount of reimbursement from the guest to compensate for his tax liability. The only exemption that the hotel operator can claim from the tax are for a "permanent resident," that is, a person who has the right to occupy a room in the hotel for 30 consecutive days, and in some cases, for consular officials. He incurs the tax when he provides rooms to all other persons.

93-0338 $1.00 — 06/17/1993 In order to claim the permanent resident exemption, an operator must be able to show that a room or rooms are reserved for a guest for thirty consecutive days or more. It is no longer necessary that a particular room or rooms be designated for the permanent resident in order to claim the exemption.

93-0200 $1.25 — 04/29/1993 The Interstate Commerce Exemption is available for tangible personal property purchased in Illinois which the seller, by agreement, ships from a point in Illinois to a point outside Illinois, not to be returned to Illinois.

Chicago's home rule Municipal Use Tax, however, is collected by retailers in Chicago and the collar counties.

INVESTED CAPITAL TAX

93-0350 $1.25 — 06/28/1993 This letter explains the "property factor," borrowed from Section 304(a) of the Illinois Income Tax Act, that is used to calculate a person's invested capital which is subject to tax. This factor includes the average value of a person's real and tangible personal property owned or rented and used in the trade or business during the taxable year. Consequently, the average value of an office telephone system used by a telecommunication retailer to engage in business is included in the calculation.

LEASING

93-0188 $1.75 — 04/23/1993 The lessor of tangible personal property under a true lease in Illinois, is deemed the end user of the property. As the end user, the lessor owes use tax on his cost price of the property. Since the lessor has already discharged the tax liability with respect to the leased property, no tax is imposed on rental receipts by the State of Illinois.

93-0217 $1.50 — 03/23/1993 If a vehicle lease is terminated, a lessor/dealer may trade the vehicle in, in order to purchase another vehicle. The ability of the lessor/dealer, as owner of the vehicle, to trade it in to another dealer or manufacturer does not depend upon whether the lease ran full term or was terminated early. The lessor/dealer simply owns a car for which he no longer has a use and can use it as a trade-in on a new car and receive the tax benefit for that purchase.

05/19/1993 In true leases, the lessee is not required to purchase the item, but can "walk away" at the end of the lease term. No nominal option to purchase is included in the lease. In Illinois, lessors under true leases owe Use Tax "up front" on the cost price of the item which they purchase for leasing purposes. They do not collect tax on the monthly rental receipts.

06/03/1993 In Illinois, a true lease generally has no buy out provision at the close of the lease. If a buy out provision does exist, it must be a fair market value buy out option in order to maintain the character of the true lease. The lessor of tangible personal property under a true lease in Illinois, is deemed the end user of the property to be leased.

06/28/1993 So long as a lease agreement contains a nominal purchase option at the expiration of the lease term, the agreement will be considered a conditional sale rather than a true lease. True leases are generally characterized by a fair market value purchase option if a purchase option is offered.

LOCAL TAXES

93-0140
$1.25

04/08/1993 Local taxes are only required to be collected if selling occurs in a jurisdiction imposing a local tax. The Department has determined that the single most important factor in the occupation of selling is the seller's acceptance of the purchase order. Therefore, local taxes will be incurred if the purchase order is accepted in a locality imposing a tax.

93-0156

04/09/1993 If orders are merely solicited by representatives in Illinois and then forwarded to an out-of-State location for acceptance (so as to create a binding contract), the out-of-State retailer is required to register and collect the State rate of tax on deliveries to Illinois locations. If the orders, however, are accepted (and not merely solicited) at a location imposing a local tax, the retailer is required to collect not only the State rate of tax, but also whatever local taxes are applicable.

93-0285 06/01/1993 In Illinois, the appropriate tax rate is determined by
$1.00 the location of purchase order acceptance. In the absence of proof to the contrary, the Department will assume the purchase order acceptance takes place at the location where the purchase order is physically received. If purchase orders are accepted outside the state, the appropriate tax rate is then determined by the location of inventory maintained in this state.

93-0352 06/30/1993 The HRMROT is incurred when sales are made within a
$1.25 jurisdiction which has enacted a HRMROT. As Section 270.115 (b) explains, the Department has determined that the location at which the seller accepts the purchaser's offer to buy is where "selling" occurs. Also, if the order is accepted outside the State, but the tangible personal property sold is located in an inventory of the retailer located in a jurisdiction that has enacted a HRMROT, then the sale is subject to the HRMROT.

MANUFACTURING EXEMPTION

93-0153 04/08/1993 Under the Manufacturing Machinery and Equipment
$1.00 Exemption, the purchase of machinery and equipment used primarily in the on-line manufacturing of tangible personal property for wholesale, retail sale or lease, is exempt from or Retailers' Occupation Tax. The purchase of hand tools, consumable supplies, fuels and chemicals will generally be subject to tax.

93-0212 04/30/1993 Machinery and equipment used primarily in the
$1.75 manufacture of screen printed tangible personal property, can qualify for the Manufacturing Machinery and Equipment exemption.

MANUFACTURING MACHINERY AND EQUIPMENT

93-0138 04/08/1993 A paper baler used over 50 percent of the time to

93-0151 04/08/1993 To qualify for the Manufacturing Machinery and
$1.25 Equipment Exemption, equipment must be used primarily (over 50 percent of the time) in a production process. As a result, machinery which is used primarily to transports materials or parts prior to their entrance into the production cycle, or to transport

93-0180 04/21/1993 The Manufacturing Machinery and Equipment Exemption
$1.25 extends to machinery and equipment used primarily (over 50 percent of the time) in the manufacturing or assembling of tangible personal property for wholesale or retail sale or lease. An asphalt manufacturer who primarily uses the asphalt he produces to perform contracting jobs does not qualify for the exemption, because the asphalt is not produced for subsequent sale. Instead, it is used by the manufacturer/contractor himself.

93-0197 04/28/1993 The lessor of manufacturing machinery and equipment
$1.00 that will be used primarily in the manufacturing or assembling of tangible personal property for wholesale, retail sale or lease, may purchase such manufacturing equipment free from tax by providing an exemption certificate to the supplier.

93-0244 05/14/1993 Machinery and equipment used for general heating,

93-0263 05/20/1993 Machinery and equipment used in on-line manufacturing

93-0301 06/03/1993 Under this exemption, cleaning activities are not
$1.00 considered to be repair or maintenance even when performed on exempt machinery and equipment. Consequently, an air compressor use primarily for such cleaning activities, will not qualify for the Manufacturing Machinery and Equipment exemption.

93-0303 06/03/1993 Parts that will be used to repair or replace parts
$1.00 used on exempt manufacturing machinery and equipment may be purchased free from tax. If not all parts purchased by the manufacturer will be used on exempt machinery and equipment, a percentage exemption certificate may be used.

93-0194 $1.00 04/26/1993 In order to determine whether a publication constitutes a magazine, one test must be met, and several other factors must be examined. The primary test that must be met is the periodicity test. That is, a publication must be issued at least twice a year. Additionally, other tests are considered, such as whether the publication contains articles which have value to the general public, whether the publication has the basic format of a magazine, whether it contains general advertising, and is commonly accepted as a magazine.

93-0196 $1.50 04/28/1993 Newspapers, and publications considered to be magazines are not subject to tax per Section 130.2105. The test used to determine whether a publication is considered a magazine is explained in Moody's Investor's Service, Inc. v. Dept. of Revenue, 101 Ill.2d 291 (1984). As that case states, the first factor that must be met is the periodicity requirement. The publication must be issued at least twice a year. After this requirement is met, other factors may be considered, such as the ability to subscribe to the publication, whether the publication contains information of value to the general public, whether the content includes general advertising, and whether the publication has a magazine format, including index, soft cover and individual pages.

93-0280 $1.25 05/24/1993 The newspaper and ink exemption is not extended to other types of media such as phonograph records or cassettes, even though it is possible that the same news and information printed in newspapers and magazines could be conveyed through these media as well. Therefore, the sale of CD-ROM publications will be subject to Retailers' Occupation Tax.

93-0293 $1.25 06/03/1993 In determining whether a publication qualifies for the newsprint and ink exemption, the most important requirement, is that a publication be produced periodically, at least two times or more per year.

SOT on his cost price if he is a registered de minimus serviceman (effective January 1,1993, P.E.. 87-876); or, 4. Use Tax on his cost price if he is an unregistered de minimus serviceman.
